Jaipur Rugs expands global footprint, opens store in Singapore

NEW DELHI: Handmade rugs maker Jaipur Rugs on Saturday said it has opened a new flagship store in Singapore, expanding its presence in the global market.

This is the fourth international store of Jaipur Rugs. It launched a store in London in June. Besides, it operates stores in Dubai and Milan.

“This marks the second international opening in just three months, following the launch of the brand’s London showroom earlier this year, as Jaipur Rugs continues its strategic push into the global design landscape,” the company said in a statement.
